C - Chrysler  
D - Dodge  
E - Eagle Vision  
P - Plymouth  
★ - Also used in a two-tone combination

DC - Dodge Caravan  
TC - Town & Country  
PV - Plymouth Voyager  
● - Basecoat/Clearcoat

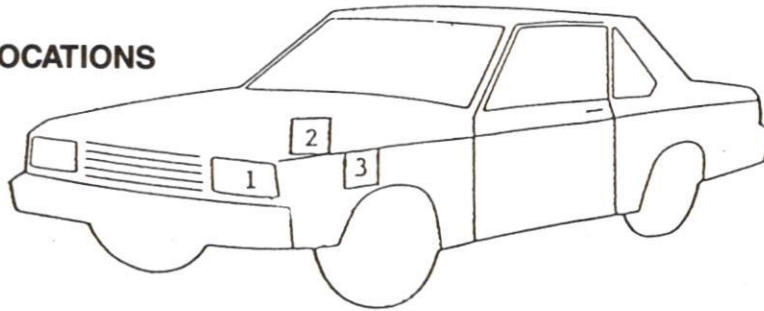

**NOTE:** The paint codes listed on the domestic built vehicles drop the first character of the three character code and are preceded with the letter "P" indicating the primary color and "Q" indicating the secondary color. Therefore, a listing of paint code "FM9" will appear on the body code plate as "PM9" and "QM9" on a monotone vehicle. Starting with the 1993 year, we will now include the "P" prefix and list the paint codes alpha-numerically.

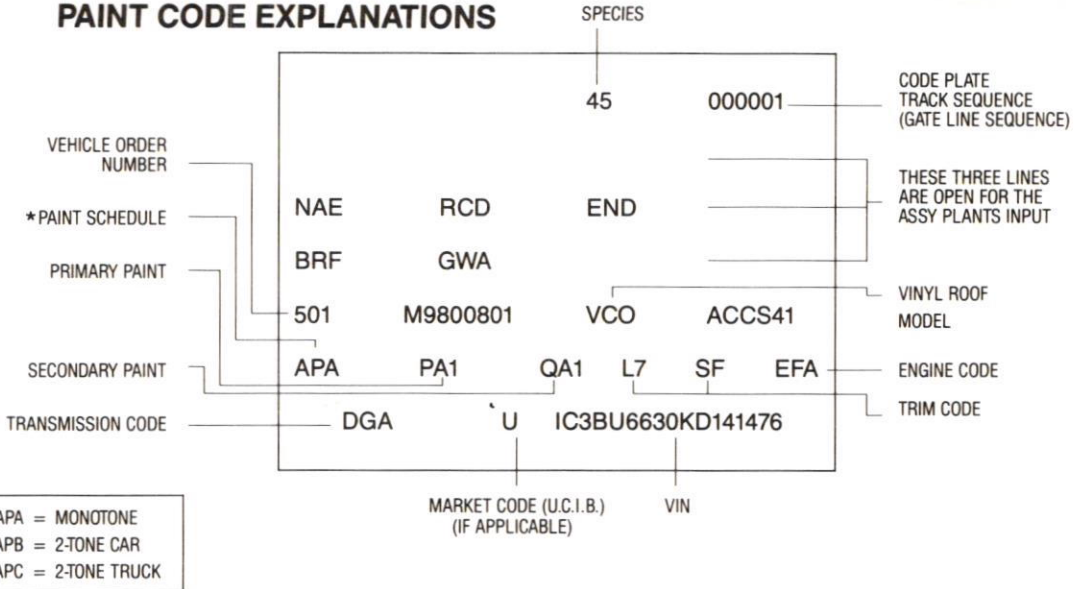

# 1993 COLOR IDENTIFICATION PLATE

## PAINT CODE LOCATIONS

## CHRYSLER

### PAINT CODE EXPLANATIONS

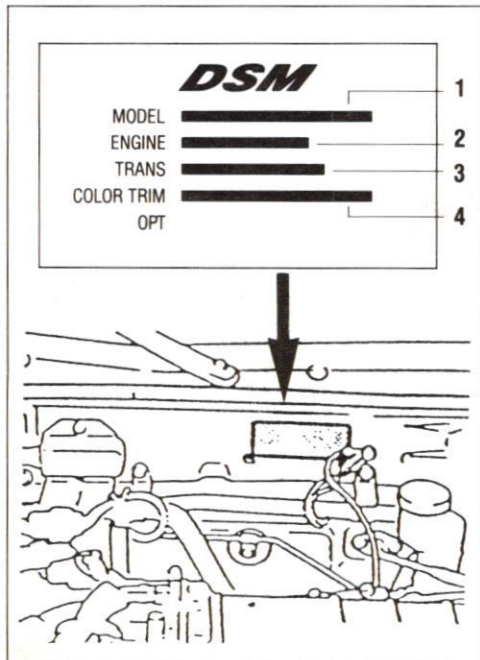

**NOTE:** The paint codes listed on the domestic built vehicles drop the first character of the three-character code and are preceded with the letter "P" indicating the primary color and "Q" indicating the secondary color. Therefore, a listing of paint code "CA1" will appear on the body plate as "PA1" and "QA1" on a monotone vehicle.

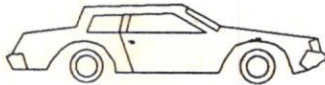

## 1993 PLYMOUTH LASER and EAGLE TALON

### VEHICLE INFORMATION CODE PLATE

Vehicle information code plate is riveted onto the bulkhead in the engine compartment. The plate shows model code, engine model, transaxle model, and body color code.
